

Safeguarding and Welfare Requirement: Child Protection: The safeguarding policy and procedures must include an explanation of the action to be taken in the event of an allegation being made against a member of staff, and cover the use of mobile phones and cameras in the setting.

Policy statement

We take steps to ensure that there are effective procedures in place to protect children, young people and vulnerable adults from the unacceptable use of Information Communication Technology (ICT) equipment or exposure to inappropriate materials in the setting.

Procedures

Our designated person (manager/deputy) responsible for co-ordinating action taken to protect children is:

Sue Stevenson (Preschool Manager)

Information Communication Technology (ICT) equipment

- Only ICT equipment belonging to the setting is used by staff and children. The term 'Computer' in this document will also cover tablet and smartphone devices if used in the setting.
- The designated person is responsible for ensuring all ICT equipment is safe and fit for purpose.
- All computers have virus protection installed.
- The designated person ensures that safety settings are set to ensure that inappropriate material cannot be accessed.
- Tablets are only used for the purposes of observation, assessment and planning and to take photographs for individual children's learning journeys.

Internet access

- Children do not normally have access to the Internet and never have unsupervised access.
- On occasion staff will access the Internet with children for purposes of promoting their learning. This will always be fully supervised.
- The designated person has overall responsibility for ensuring that children and young people are safeguarded and risk assessments in relation to online safety are completed.
- Children are taught the following stay safe principles in an age appropriate way prior to using the Internet:
 - only go on line with a grown up
 - be kind on line and keep information about me safely
 - only press buttons on the Internet to things I understand
 - tell a grown up if something makes me unhappy on the Internet

- Designated persons will also seek to build children's resilience in relation to issues they may face in the online world, and will address issues such as staying safe, having appropriate friendships, asking for help if unsure, not keeping secrets as part of social and emotional development in age appropriate ways.
- If a second hand computer is purchased or donated to the setting, the designated person will ensure that no inappropriate material is stored on it before children use it.
- All computers for use by children are located in an area clearly visible to staff.
- Only reputable sites with a focus on early learning are used (e.g. CBeebies)
- Video sharing sites such as YouTube are not accessed due to the risk of inappropriate content.
- Children are not allowed to access social networking sites.
- Staff report any suspicious or offensive material, including material which may incite racism, bullying or discrimination to the Internet Watch Foundation at www.iwf.org.uk.
- Suspicions that an adult is attempting to make inappropriate contact with a child on-line is reported to the National Crime Agency's Child Exploitation and Online Protection Centre at www.ceop.police.uk.
- The designated person ensures staff have access to age-appropriate resources to enable them to assist children to use the Internet safely.
- If staff become aware that a child is the victim of cyber-bullying, they discuss this with their parents and refer them to sources of help, such as the NSPCC on 0808 800 5000 or www.nspcc.org.uk, or Childline on 0800 1111 or www.childline.org.uk.

Email

- Children are not permitted to use email in the setting. Parents and staff are not normally permitted to use setting equipment to access personal emails.
- Staff do not access personal or work email whilst supervising children.
- Staff will follow best practices in line with data privacy law to share personal information securely by email.

Mobile phones – children

- Children do not bring mobile phones or other ICT devices with them to the setting. If a child is found to have a mobile phone or ICT device with them, this is removed and stored in a locked drawer until the parent collects them at the end of the session.

Mobile phones – staff and visitors

- Personal mobile phones are kept in the kitchen which is locked, however may be used during breaks in an area where no children are present. Office based staff may use their mobile phones in the office for work purposes, such as communication with committee. A dedicated Yarburgh-owned mobile phone is used for communication with parents/carers and for emergency contact.

- Visitors' mobile phones will be taken and stored securely in the kitchen for the duration of their visit.
- In an emergency, personal mobile phones may be used in an area where there are no children present, with permission from the manager.
- Our staff and volunteers ensure that the setting telephone number and mobile number is known to family and other people who may need to contact them in an emergency.
- If our members of staff or volunteers take their mobile phones on outings, for use in case of an emergency, they must not make or receive personal calls, or take photographs of children.
- Parents and visitors are requested not to use their mobile phones whilst on the premises. We make an exception if a visitor's company or organisation operates a lone working policy that requires contact with their office periodically throughout the day. Visitors will be advised of a quiet space where they can use their mobile phone, where no children are present.
- These rules also apply to the use of work-issued mobiles, and when visiting or supporting staff in other settings.

Cameras and videos

- Our staff and volunteers must not bring their personal cameras or video recording equipment into the setting.
- Photographs and recordings of children are only taken for valid reasons i.e., to record their learning and development, or for displays within the setting, with written permission received by parents (see the Registration Form). Such use is monitored by the manager.
- Where parents request permission to photograph or record their own children at special events, general permission is gained from all parents for their children to be included.
- If photographs of children are used for publicity purposes, parental consent must be given and safeguarding risks minimised, for example, ensuring children cannot be identified by name or through being photographed in a sweatshirt with the name of their setting on it.

Social media

- Staff are advised to manage their personal security settings to ensure that their information is only available to people they choose to share information with.
- Staff should not accept service users, children and parents as friends due to it being a breach of expected professional conduct.
- In the event that staff name the organisation or workplace in any social media they do so in a way that is not detrimental to the organisation or its service users.
- Staff observe confidentiality and refrain from discussing any issues relating to work
- Staff should not share information they would not want children, parents or colleagues to view.
- Staff should report any concerns or breaches to the designated person in their setting.

- Staff avoid personal communication, including on social networking sites, with the children and parents with whom they act in a professional capacity. If a practitioner and family are friendly prior to the child coming into the setting, this information is shared with the manager prior to a child attending and a risk assessment and agreement in relation to boundaries is agreed on a case by case basis.

Electronic learning journals for recording children’s progress

- Refer to policy 1.6.a Online Learning Journal

Use and/or distribution of inappropriate images

- Staff are aware that it is an offence to distribute indecent images. In the event of a concern that a colleague or other person is behaving inappropriately, the Safeguarding Children and Child Protection policy, in relation to allegations against staff and/or responding to suspicions of abuse, is followed
- Staff are aware that grooming children and young people on line is an offence in its own right and concerns about a colleague’s or others’ behaviour are reported (as above).

This policy was adopted by Yarburgh Community Preschool
